5.4	<p>Furnish details of the following aspects of curriculum design:</p> <p>Innovation such as modular curricula Inter/multidisciplinary approach</p>	<p>The curricula of our programmes have a strong flavor of interdisciplinary characteristic, as ICT itself captures interdisciplinary curricula of Information Technology, Communications Technology and Electronics Engineering. Furthermore, the curriculum of UG and PG programmes involves innovative strands from Humanities and Social Science courses, namely, Cultural Studies, Art and Science Fiction, Management,</p> <p>Finance, Economics and Environment, Animation, Film, Design, Graphic Design and Multimedia systems. The curriculum offers opportunity to all students to pick-and-choose courses that stimulate their intellectual capital and challenge their innovative strengths from the basket of elective courses of all sorts, technical (focused towards the state-of-the-art and their professional career-oriented), science (explorative and investigative) and open (societal, indirectly thought provoking, sensitive) elective courses. Many courses are taught in a modular form, where one module finishes and the assessment of the students is completed, and then the next module starts. In particular, the courses in humanities and social sciences, design projects, communication skills follow modular approach.</p>		
5.5	<p>Has the University conducted an academic audit? If yes, please give details regarding frequency and its usage.</p>	<p>Academic Council (AC) and Board of Studies (BoS) are two statutory bodies of the institute who monitor the academic growth periodically. The academic progression of all programs of DAICT is conducted continuously through discussions in the UnderGraduate (UG) and Postgraduate (PG) Programme Committees of the institute. Ideas and suggestions arising out of such deliberations are minuted and brought before the Board of Studies (BoS) and Academic Council (AC) for further consideration. Based on the approval from BoS and AC, any course curriculum may undergo changes vis a vis its content, mode of delivery, inclusion of practical components, method of evaluation etc. Meetings of the BoS and AC are organized at least once in each semester. The Institute has constituted its Internal Quality Assurance Cell (IQAC) which assesses academic performance of the institute and</p>

5.6	<p>Apart from classroom instruction, what are the other avenues of learning provided for the students? (Example: Projects, Internships, Field trainings, Seminars, etc.)</p>	<p>The curriculum at DA-IICT is a blend of technology, basic science, humanities, social sciences, language and mathematics. The rigor at which these courses are dealt with is quite holistic and aims towards molding our graduates with capabilities which can fit them in any challenging career pathway. Being the premier ICT institute in the country, the Institute is very proactive in incorporating the new techniques of e-learning resources in the academic practices. Our Resource Centre has a rich collection of e-resources – National Programme on Technology Enhanced Learning (NPTEL) lectures materials, e-journals of all leading publishers, special lecture series on various ICT domains archived in DVD/CD, and communication language materials. Most of the laboratory courses use extensively open source tools and e-resources of other forms in the respective courses, based on the concerned course instructor's course policy. The course content and lecture materials of all courses are posted on the respective faculty's folder on the institute's intranet. Many of our students use e-books and enroll in online courses, e.g., MOOC, Coursera. Besides, students are also encouraged to participate in national/international level online contest such as programming ACM ICPC, Microsoft Imagine Cup, IBM TGMC, Google summer of code, etc, by which they get useful exposure and visualize on how one can make the effective use of e-resources from classroom learning to real-world practice. Each BTech course (with lab/tutorial) has a number of Teaching Assistants (TAs). They, as well as faculty members help the students in clarifying their doubts during lab/tutorial sessions. UG Committee members act as faculty mentors for first year students. Some Technical Clubs like Electronics Hobby Club (EHC), DA-IICT Linux Users Group (DLUG), Programming Club and Open Source Club help the student in computer literacy. EHC is a place for playing with electronic circuits, computers and instruments out-of-the classroom. DLUG has been committed to actively promote the use of Linux and other open source software for strengthening the objective of the worldwide open source movement. The Programming Club helps students in improving their programming skills. The</p>

		<p>Open Source club encourages students to understand Open Source like never before (Open Source is a kind of software application which can be used by anyone for free). All these clubs get a fixed budget every year from the Institute to carry out their activities. Apart from the above, the institute has an Entrepreneur Development Cell which encourages young graduates (within and outside) for start-ups that help them in developing their core competencies in entrepreneurial activities. The Institute conducts workshops, seminars, and training programmes regularly in several areas.</p> <p>The institute has conducted some international events such as INDICON, ICISS, FIRE, WiSSAP, TENSYP. The institute has a very active IEEE and ACM students' branch, which organizes many workshops and training programmes throughout the year. Many eminent researchers visited the institute and delivered invited lectures to our students. These events complement the teaching-learning and research collaboration in the curriculum.</p> <p>Eminent researchers and business leaders are invited to give a talk to our students and faculty. In addition, students take up internship positions in well-known companies and reputed academic institutes to work on new technologies. On several occasions external faculty had been invited to discuss about our curricula. The Institute invites academic experts as Adjunct Faculty who teach courses, conduct training and workshops which help in developing the curriculum.</p> <p>Faculty members also carry out peer review of their course outline and take input from national and international faculty in their individual levels. The Academic Council of the Institute consists of experts from IITs and industry. Any matter relating to the curriculum is discussed in the council and suitable amendments suggested by the Academic Council.</p> <p>Furthermore, industrial internships, rural internship, industry oriented projects, case studies, and electives included in the curriculum enable the employability of the students. The students at both UG and PG programmes are provided numerous opportunities for innovation via internships, course projects, semester projects, independent study courses, online courses and through sponsored research projects. Since the faculty members are active researchers, they involve students in their research projects as project trainees or associates. Undergraduate students can participate in research through the option of research internships or BTech project, which can foster students' research potential</p>

		<p>in an on-going manner at an individual or group level. The internships / project works of the curriculum gives an opportunity for the students to carry out research based projects, which may lead to publications in conferences/journals. Students do their internships and projects in industries such as Google, Amazon, Juniper Networks, HP Bangalore, Deloitte, Flipkart, and other industries. At the same time, many students prefer to do their internships and projects with IISc Bangalore, IITs, TIFR, ISRO and IIIT Hyderabad. The DA-IICT Centre for Entrepreneurship and Incubation (DCEI) helps to encourage students with an entrepreneurial bent of mind to come up with innovative ideas and channelize their efforts to give birth to new ventures based on ICT products.</p> <p>DA-IICT has a Student Placement Cell that organizes placement activities for passing-out students. The Placement Cell at DA-IICT works hand in hand with representatives from the industry to identify and understand its needs. Accordingly, it organizes intensive workshops to equip students with the skill-set to come up with innovative solutions to real world problems. As part of this activity, they also run programs to prepare students to face interviews including grooming, group discussions etc.</p>						
5.7	Please provide details of the examination system (Whether examination based or practical based)	Yes, all programmes adopt examination system for courses which is based on written examination (using paper-and-pencil) and based on practical examination (assessment on Laboratory component of the course). 5.8	What methods of evaluation of answer scripts does the University follow? Whether external experts are invited for evaluation?	The performance of students is assessed on a continuous evaluation mechanism by assessing their performance in in-semester examinations, end- semester examinations, assignments, quizzes, student presentations, laboratory work and projects. The UG and PG committees along with Dean (AP) keep a continuous watch to the regular lectures/labs, course outlines, feedback processes, examination and evaluation practices. ## **Grievance Redressal Procedure for Students and Employees**

## **Grievance Redressal Procedure for Students and Employees**

The community of the Institute should resolve all issues through discussions and negotiations by Grievance Redressal procedure of the Institute in order to smooth functioning of academic and administrative activities of the Institute.

Grievance refers to any of the students'/employees' dissatisfaction or not in agreement with any aspect of the Institute's activities and services including those of other students or employees.

Student shall mean a student on the current rolls of the Institute.

Employee shall mean a member of faculty or an officer or staff of the Institute on the rolls of the Institute.

### **1. Scope**

The scope of these rules is to maintain an effective grievance handling system for its students and employees. The standing operative principals of Grievance Redressal Handling System (GRHS) are:

- To ensure that GRHS functions in a proactive manner and has preventive measures in place by constantly evaluating systems and processes. The GRHS must find appropriate solutions to avoid the recurrence of the same or similar problems in the future. Should a problem still arise, the purpose of the GRHC is to seek redressal through a fair investigation and resolution; and
- To ensure that any grievances are resolved promptly, objectively and with sensitivity;

Note: Matters related to Disciplinary Action Committee and Gender Cell are out of scope of the GRHS.

### **2. Nature of Grievances**

The GRHS of the Institute accounts for addressing student grievances and employee grievances.

#### **2.1 Student Grievances**

- Grievances against Teaching-Learning and Evaluation
- Grievances against Registration, Fees, Results and Transcripts
- Grievances against Internships and Placement
- Grievances against General Amenities and Services
- Student to Student Grievances

#### **2.2 Employee Grievances**

- Faculty Grievances
- Staff Grievances

### **3. Authority and Procedure for Redressal of Grievances**

Levels for Grievance Redressal procedure for Students, Faculty, and Staff are mentioned in Table 1,

Table 2, and Table 3, respectively. Grievance, submitted formally, should be addressed as per the Table 1, 2, 3 with respect to applicable levels and stipulated timeframe.

- Grievances of the students be resolved by their respective course instructor/mentor of the course/ Program coordinator/ Program Convenor/ Deans Office/ Hostel Wardens/ Registrar's office/ Controller of Examinations Office/ Placement Office.
- Grievances of the faculty and staff shall, as far as possible, be resolved by their respective reporting authority.

The grievance redressal procedure has three levels of which, Level-III is the highest level. The decision of the Level-III authority will be final, and no further appeal will be entertained under any circumstances. Formal grievances shall be submitted in writing stating complete facts and supporting evidence to the Level-I of Grievance handling authority, as applicable in Table 1, Table 2, and Table 3.

The Ombudsperson, after giving reasonable opportunities of being heard to the parties concerned, on the conclusion of proceedings, pass such order, with reasons thereof, as may be deemed fit to redress the grievance and provide such relief as may be appropriate to the aggrieved student. The Institute, as well as the aggrieved student, shall be provided with copies of the order under the signature of the Ombudsperson. The Ombudsperson may recommend appropriate action against the complainant if a complaint is false or frivolous.

Conflict of interest: Any person in the Designated Authority as mentioned in Table 1, 2, 3, should declare his/her conflict of interest before taking up or getting involved in GRHS.

#### 4. Grievance Handling and Resolution Procedure

The following procedure will be followed by students/faculty/staff to submit a grievance to the appropriate authority mentioned in Table 1, Table 2, Table 3 as applicable.

- Formal complaint by the aggrieved person shall be submitted in writing to the Level-I authority in Table 1, Table 2, Table 3 as appropriate.
- The designated authority may allow an opportunity to the complainant (both the parties) to formally present his/her case along with the relevant documents in support. The authority may also seek clarification from the complainant or call for further facts on the matter. Clarification may also be sought by written or verbal request or by face-to-face interaction with the complainant.
- The authority concerned will then endeavour to respond the grievance as soon as possible, but

within one week and convey the outcome/action taken to the complainant or forward the same to Level-II authority.

- If the matter is forwarded to Level-II authority, the authority will discuss the matter with the complainant and other appropriate concerned to respond the grievance within one week from the receiving the appeal and convey the outcome/action taken to the complainant or forward the same to Level-III authority.
- If the matter is forwarded to Level-III authority, the authority may get the matter investigated through a designated subcommittee, or arrive at a decision within two weeks from the receiving the appeal. The decision of the Level-III authority will be final, and no further appeal will be entertained under any circumstances.

**To note the actions taken on the minutes of the meeting of the Council held on 10<sup>th</sup> January, 2019**

The Council noted the actions taken on the minutes of the meeting held on 10<sup>th</sup> January, 2019 as details placed before the meeting. Referring to the remark 'no action taken' recorded against the decision on reduction in credit requirements for B.Tech (ICT) and (CS) Programs and review of technical electives, the Council pointed out that the failure in implementing the decision of the Council is dishonouring its decision. In future, if the decision of the Council could not be implemented, the reasons with justification should be presented before the Council.

**Item No. 3****To ratify the approval of Chairman, Academic Council to implement separate Academic Requirements for PhD Programme in Humanities, Social Sciences and Design**

The Chairman, Academic Council, invited Prof Manik Lal Das, PG Convenor to brief the Council on agenda items 3 to 4. He briefed the Council on the recommendations of the PG Committee to introduce separate academic requirements for PhD Programme in Humanities, Social Sciences and Design streams. He stated that they included (a) introduction of part time sponsored and external registration categories, (b) revision of credit requirements from 96 to 80 for MSc/BTech/MCA/MA graduates and (c) comprehensive examination consisting of two parts an examination, and *viva-voce*. He also informed that with the approval of the Chairman, Academic Council, the recommendations of the PG Committee were implemented effective from the academic year 2019-20.

The Council ratified the approval accorded by the Chairman, Academic Council.

**Item No. 4****To ratify the approval of Chairman, Academic Council to implement the Academic Requirements for PhD Programme in Engineering in ICT disciplines, Science and Mathematics**

Prof Manik Lal Das informed the Council that Academic Requirements for PhD Programme in Engineering in ICT disciplines, Science and Mathematics have been drawn up separately on recommendation of the PG Committee. He explained that the changes made in these streams were the same as of the PhD Programme in Humanities, Social Sciences and Design streams except that the comprehensive examination consisted of written or qualifies and proposal defense. The recommendations were implemented effective from the academic year 2019-20 with the approval of the Chairman, Academic Council.

The Council ratified the decision taken by the Chairman.

**Item No. 5****To approve the report of MTech (ICT) Revisit Committee and the revised Academic Requirements**

Prof Manik Lal Das briefed the Council on the report of the MTech (ICT) Revisit Committee. He informed the Council that based on the recommendations of the Committee, specializations in Communication and Signal Processing, Machine Learning, Software Systems and VLSI and Embedded Systems have been introduced. The other changes made were (a) introduction of resident and external registrations, (b) fixation of semester load requirements to 14/15 credits per semester in the first year and second year, (c) reduction in credit requirements from 60 to 55 out which 36 credits for coursework, and (d) discontinuation of project mode and group

core courses and instead, introduction of program core and specialization core courses. He brought to the notice of the Council that these changes were implemented from the academic year 2019-20 with the approval of the Chairman of the Council.

The Council ratified the decision taken by the Chairman.

The Council suggested that besides the formal graduation certificates, PhD Scholars and M.Tech students be issued with separate specialization certificates. In case of PhD Graduates, the Certificates should state broad areas in which the Scholars have prepared his dissertations. The Council advised the Director to constitute a Committee to identify and classify the possible areas of specializations for PhD Scholars. It was decided that these Certificates are to be issued separately by the Registrar's Office.

#### **Item No.6**

**To ratify the decision taken by the Chairman, Academic Council to approve the course structure of MTech Program in EC with specialization in Wireless Communication and Embedded Systems and the Academic Requirements**

Prof Suman Mitra, Dean (AP) briefed the Council on the genesis of launching the MTech (EC) with specialization in Wireless Communication and Embedded Systems (EC) jointly with CR Rao Advanced Institute of Mathematics Statistics and Computer Science, Hyderabad. He informed the Council that the Board of Studies of PG Programs at its meeting held on 12<sup>th</sup> April, 2019 approved the course structure and the total credit requirements for award of Degree at 61 credits out which 40 credits are to be earned through coursework and 21 credits through research. He informed the Council that with the approval of the Chairman, Academic Council, the academic requirements have been implemented from the academic year 2019-20.

The Council ratified the decision taken by the Chairman.

#### **Item No.7**

**To ratify the decision taken by the Chairman, Academic Council to approve the curriculum, scope and program outcome of M.Tech Programme in Computer Science & Engineering with specialization in Data Sciences and Information Security**

Prof Suman Mitra, Dean (AP), briefed the Council on the curriculum, scope and program outcome of the M.Tech Programme in Computer Science and Engineering with specialization in Data Sciences and Information Security offered in collaboration with IIT Jammu. He informed the Council that with the approval of the Chairman, Academic Council the curriculum has been implemented and 26 students are undergoing their winter semester studies at DA-IICT.

The Council ratified the approval of the Chairman.

**Item No. 8****To approve the proposal to launch B.Tech (Mathematics and Computing) Programme**

The Chairman recalled that at the meeting of the Council held on 15<sup>th</sup> November, 2018, a proposal was mooted to launch an integrated MSc Program in Mathematics and Computing. He stated that on studying the report prepared by the Working Committee and on consultation with academia and Industry, it was felt that it would be more worthwhile to launch a B.Tech Program in Mathematics and Computing. Based on this conclusion, the Working Committee with Prof V Sunitha as Convenor had prepared a proposal. With the permission of the Council, he invited Prof Sunitha to brief the Council on the program. .

Prof Sunitha briefed the Council that the Committee has designed the program after soliciting feed back from stakeholders such as faculty, alumni, prospective employers. She stated that the curriculum is designed in such a way that the students will acquire a wide variety of competence that will be apt for a whole range of occupations and for research and managerial careers. Prof Sunitha also briefed in detail the curriculum of the program.

The Council studied the curriculum and accorded it approval to the program. It was decided to launch the program from the academic year 2020-21.

**Item No. 9****To approve the proposal to launch M.Sc Program in Data Science**

The Chairman briefed the Council on the report submitted by the Working Committee under the convenorship of Prof Bhaskar Chaudhury to launch an M.Sc Program in Data Science. He invited Prof Chaudhury to brief the Council on the program. Prof Chaudhury summarised the important aspects of the program and stated that unlike M.Sc(IT) Program, the admission to the Program will be for Science, Statistics, Mathematics and Engineering Graduates. After detailed discussions, the Council made the following recommendations:

- The course titled 'Critical Thinking and Term Paper Presentations' in second semester be replaced with 'Mini Project 1' with same credit structure. Mini Project 1 will provide the required foundation for the students to prepare detailed proposal for 'Mini Project 2' in semester 3.
- Credit Structure for 'Big Data Processing' course be changed to 2-0-2-3.
- Credit Structure for 'Optimization' course be changed to 2-0-2-3.
- The title of the course 'Numerical Methods for Data Science' be changed to 'Numerical Methods.'
- Depending on the duration of SAS training, the course on SAS should be assigned a proper credit structure with a well defined evaluation methodology.
- Offer more electives on emerging areas as Technical Electives.

**Item No. 10****To consider the appeal of Mr Nileshkumar M. Banker, deregistered PhD Scholar**

The Council approved the request of Mr Nilesh M Banker, the deregistered PhD Scholar, to rejoin the PhD program and authorised Dean (AP) to complete the procedures for his readmission.

**Item No. 11****To approve and recommend to the Board of Governors the award of Degrees to the students who have fulfilled their academic requirements for graduation**

The Council approved and recommended to the Board of Governors the award of Degrees to 475 students including 8 PhD Scholars who have successfully completed their studies in the academic year 2018-19 as per the list placed before the meeting. The Council also resolved to recommend to the Board of Governors to approve award of President's Gold Medals to the following students:

Sr No	Student Id	Student Name	CPI	Program
1	201501020	SHUBHAM D ANNADATE	9.60	B Tech (ICT)
2	201501099	AGAM ALKESHKUMAR SHAH	9.51	B. Tech (Honours) in ICT with minor in Computational Science
5	201712001	RANADE ARCHAN CHANDRASHEKHAR	9.14	M Sc (IT)

The Council noted that as per rules on award of President's Gold Medals, Mr Shah Ketul Tejabhai, M.Tech (ICT) Student who is the topper in the class (CPI 9.49) became ineligible for award of Gold Medal since he received an 'F' Grade in the Course 'Computational Optimization' which he registered as an Audit course in Autumn 2018-19 semester. The Council felt that the student who has obtained the next highest CPI deserves award of Gold Medal. Accordingly, the Council recommended award of Gold Medal to Ms. Dimple Jayendrabhai Shah, M.Tech (ICT) student who obtained the next highest CPI of 9.32. It was also recommended to make appropriate provisions in the Gold Medal Rules to award the Gold Medal to the next topper in the list of merit in case the first topper becomes ineligible for award of the Medal.

The Council noted that out of the 7 graduating students of M.Des (CD) Programme, no student is found to be eligible for award of Gold Medal as all of them have obtained less than CPI 8.

**Item No. 12****To note the Report on 2019 Admissions**

At the invitation of the Chairman, Prof Mukesh Tiwari briefed the Council on Admissions 2019. He highlighted that a comparative analysis of the applications received shows that the negative trend of applications during the years 2015-18 was halted in 2019. While DA-IICT is able to attract applications from outside Gujarat, the final acceptance of admission by the students from other States was quite less especially in the B.Tech Programs. Most of the high JEE ranked candidates did not participate in the online counselling and a few who did, cancelled their admission at DA-IICT when they received admit from IITs, IIITs, NITs and private Institutes like VIT and SRM. It was pointed out that the applicants preferred B.Tech (Hons.) with minor in Computational Science compared to B.Tech (ICT) Program.

Regarding admission to PG Programs, Prof Tiwari stated that Introduction of specializations in M.Tech (ICT) Program had an overall impact on the number of applications received and Machine Learning was the most preferred specialization. Average GATE score in Machine Learning and VLSI and Embedded Systems specializations were higher than Communication and Signal Processing and Software Systems. For M.Tech (EC), the the GATE score of candidates applied was low. Applicants with high GATE score who got admission in higher ranked Institutes preferred those over DA-IICT.

The Council noted the Admissions Report 2019.

**Item No. 13****To note addition to faculty**

The Council noted that the following faculty members have joined the Institute during April to December, 2019:

- 1) Dr Priyanka Singh, Assistant Professor
- 2) Dr Supantha Pandit, Assistant Professor
- 3) Dr Ahlad Kumar, Assistant Professor
- 4) Mr Avijit Dutta, Assitant Professor
- 5) Dr Abhishek Jindal, Assistant Professor
- 6) Dr Tapas Kumar Maiti, Associate Professor

The following additional items were discussed with the permission of the Chair:

**Item No. 14(i)****Proposal to introduce one credit core course for extra-curricular activities**

The Council discussed the proposal in detail and felt that it is not advisable to award credit for extra-curricular activities since they are outside the realm of normal curriculum.

**Item No. 14(ii)**

**To approve the Academic Calendar 2020-21**

The Council approved the Academic Calendar 2020-21.

The meeting ended with a vote of thanks to the Chair.

**MINUTES OF THE  
THIRTYFIFTH MEETING OF THE ACADEMIC COUNCIL**

The 35<sup>th</sup> meeting of the Academic Council was held on 21<sup>st</sup> July 2022. The following members were present:

1. Prof K.S. Dasgupta, Chairman
2. Prof Ranjan Bose, Member
3. Shri Tapan Misra, Member
4. Prof TathagataBandyopadhyay, Member
5. Shri Pavitar Singh, Member
6. Prof Sanjay Srivastava, Member
7. Prof Binita Desai, Member
8. Prof Maniklal Das, Member
9. Prof Manjunath Joshi, Member
10. Prof Sunitha V, Member
11. Prof Ranendu Ghosh, Secretary

**Item No. 1**

**To confirm the minutes of the 34<sup>th</sup> meeting of the Council held on 12<sup>th</sup> March 2021**

The Council confirmed the minutes of the 34<sup>th</sup> meeting of the Council held on 12<sup>th</sup> March 2021.

**Item No. 2**

**To obtain the approval of Chairman and Members, Academic Council to implement new PG program on MSc in Agriculture Analytics**

DA-IICT, in partnership with Indian Institute of Remote Sensing (IIRS), ISRO and Anand Agricultural University (AAU), Anand, has started a two-year MSc degree program in Agriculture Analytics. The objective of the program is to introduce the concept of satellite technology and data processing, machine learning, mathematical and statistical modeling in the program curriculum.

Presentation on Agriculture Analytics program was made by Prof Ranendu Ghosh. He presented the genesis, need, program structure and current status of the new program. It is envisaged that the students in the program will move to DAIICT, IIRS and AAU in the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> semesters respectively. One unique feature of the program is to introduce Value Added Courses (VAC) in the summer semester by the industries/academia before they move to AAU for the 3<sup>rd</sup> semester. Dr Ghosh also briefed that a total of 29 students were admitted in the first batch of the program. The admission process was based on admission test (50% weightage), academic credentials (20% weightage) and interview (30% weightage). Before the orientation program at DAIICT, the students were undergone a two days bootcamp during July 18 – 19 2022. This was essentially an interaction program of the students with related agritech industries.

Observations made by AC members are as follows

- Participation of the industries and their interest on engaging with the students should be ensured in the program.
- Prospect of higher studies (PhD) should be explored once they complete the PG program.
- Encourage the admission of girl students in the program
- Introduce the agriculture policy issues in the curriculum.

The members expressed their satisfaction about the initiative of starting a new multidisciplinary and multiinstitutional program

### **Item No. 3**

#### **Presentation by Prof Anish Mathuria on the revised M.Tech ICT program**

The objective of the revamped MTech (ICT) curriculum is to develop a flexible structure that allows students to choose courses according to their interests. The curriculum also allows them to undertake an internship in the final semester. Changes to the curriculum include adding a minor project in the second semester and a major project to be carried out during the summer semester and the following autumn semester. Students who choose to undertake thesis research would be allowed to spend the final semester at a collaborating research partner organization.

There were few comments from members of the council as follows

- What is the duration of internship?
- What is the percentage distribution of students in thesis and internship option.

Dean AP responded that percentage is 50 : 50 in the first year and 40 : 60 in the second year.

Members, in general, commented that internship is a good option for the students. It was suggested that for thesis option, the students should work on problem defined by the industries.

The Council endorsed the improvements in the program.

#### **Item No. 4**

#### **Presentation by Prof Yash Vasavda on the revised M.Tech EC program jointly offered by DA-IICT and CR Rao AIMSCS**

DA-IICT, in partnership with CR Rao AIMSCS Institute, offers a two-year MTech degree program in Electronics and Communication (EC) with specialization in Wireless Communications and Signal Processing (WSP). The objective is to position the graduating students at the forefront of industrial and academic research developments in the advanced wireless communication systems and signal processing architectures.

The degree program structure is as follows.

- In their first semester, the students undertake the course work comprising a core subject (Introduction to Wireless Communication), a Lab course, a general elective in mathematics and a general elective in technical domain.
- In the second semester, the students take a specialization core II (Advanced Digital Signal Processing), and two specialization electives. In addition, the students work on a Minor Project I in the second semester. The students undertake a Major Project I in the summer semester. In the third semester, the students study two specialization electives and continue working on the Major Project I. Finally, in their fourth semester, the students opt to conduct either the Major project II on the campus, or undertake an Industrial Training Project. If a student undertakes the Major Project II, the program requires it to be a continuation of Major Project I. Upon successful completion of the Major Project II, the student is awarded a thesis certificate.

The students are required to be at DA-IICT during the first two semesters; they can opt to be either at DA-IICT or CR Rao AIMSCS during Semesters III and IV.

There were comments as follows

- Students with VLSI but without Signal Processing (SP) knowledge may not be useful
- Raspberry experience will be useful

Dean AP responded that a course on VLSI with SP can be offered.

Teaching or Research Assistantship is offered, as per the UGC norms, to all the eligible students. Total intake is 16, with 12 seats reserved for the GATE-qualified students

After detailed discussion the council members ratified the improvements suggested by the institute.

The meeting ended with a vote of thanks to the Chair.

## **MINUTES OF THE THIRTY SIXTH MEETING OF THE ACADEMIC COUNCIL**

The 36<sup>th</sup> meeting of the Academic Council was held on 11<sup>th</sup> April 2023. The following members were present:

1. Prof K.S. Dasgupta, Chairman
2. Shri Tapan Misra, Member
3. Prof Sanjay Srivastava, Member
4. Prof Binita Desai, Member
5. Prof Maniklal Das, Member
6. Prof Manjunath Joshi, Member
7. Prof Sunitha V, Member
8. Prof Ranendu Ghosh, Secretary

Online:

1. Prof Prabir Biswas, Member
2. Shri Pavitar Singh, Member

Prof Ranjan Bose could not attend the meeting.

Agenda:

1. Welcome by Chairman
2. To confirm the minutes of the 35<sup>th</sup> meeting held on 21<sup>st</sup> July 2022
3. Presentation on new B.Tech program on Electronics and VLSI Design (EVD) by Prof Biswajit Mishra
4. Any other matter with the permission of the Chair

### **Welcome by Chairman**

#### **To confirm the minutes of the 35<sup>th</sup> meeting of the Council held on 21<sup>st</sup> July 2022**

The Council confirmed the minutes of the 35<sup>th</sup> meeting of the Council held on 21<sup>st</sup> July 2022.

#### **Item No. 3**

#### **To obtain the approval of Chairman and Members, Academic Council to implement new UG program on BTech in Electronics and VLSI Design (EVD)**

Semiconductor integrated circuits (ICs) are the backbone of the current revolution in electronics and computing. The Indian government has recently launched India Semiconductor Mission with a vision to enable India's emergence as a global hub in electronics manufacturing and design. Given the increasing interest of nation in semiconductor manufacturing and R&D, both in India and worldwide, the sector is likely to witness a spike in demand for engineers with

semiconductor knowhow. The objective of the new B.Tech. in Electronics and VLSI Design (EVD) at DA-IICT is to create industry ready undergraduate manpower for the semiconductor industry and create a vibrant ecosystem.

The proposed B.Tech. in EVD degree is a cutting edge course, allowing the student to choose from a wide range of modules based on digital integrated circuit design and analogue integrated circuit design. This is an interdisciplinary program, allowing students to take various courses as part of the program. There are two pathways offered to the students where he / she can take various elective courses ranging from Circuits and Systems, Solid State Devices, VLSI Technology, Embedded Processors, Sensors and Systems, Real Time Operating Systems, IoT, Secure Devices, MEMS along with opportunity to take various discipline and free electives leading to specialization either in Electronic System Design or VLSI Design.

Presentation on B.Tech. in Electronics and VLSI Design program was made by Prof Biswajit Mishra. He presented the genesis, need, program structure and commitment and requirement of / from the instidute.

Key points of the new UG program B.Tech. in Electronics and VLSI Design:

1. First UG program dedicated to VLSI in Gujarat
2. Innovative and Industry relevant courses
3. Practice based curriculum
4. Student will be designing an Integrated Chip during their course duration in II year.
5. An entrepreneurship route if the student decides to venture out

Observations made by AC members are as follows

- The proposed curriculum is timely and innovative and will make students industry ready
- There are several pathways which gives flexibility to the student to explore in research, industry or entrepreneurship.
- The focused and practical and industry relevant aspects in the course is encouraging
- The industrial and research internship should be explored further so that the students are benefitted.

Some other points:

- Owing to the credit structure of the proposed course, institute may decide to offer this as an honours course or suggest a mechanism to bring all the UG programs to have equal number of credit structure.
- Exploratory Project should be introduced
- In the next review meeting, the coordinator should report the good practices and challenges and progress of the program
- The two programming course offered to the students during the first year may be looked at and ways to merge them into one, if required.
- Research internships MoU should be in place and to be treated as a priority.
- As the Math courses lay emphasis on the applications, these should be renamed to Engineering Maths.

After deliberations on the proposal of the program, the members expressed their satisfaction about the initiative of starting this new program.

## **Policy on Examination System**

## **Policy on Examination System at DAIICT**

### **1. Introduction**

This policy outlines the framework for the conduct of examinations at DAIICT, managed by the Controller of Examinations (CoE). It applies to all students enrolled in various programs at the institute. The examination system is designed to ensure fairness, transparency, and integrity in evaluating student performance.

### **2. Examination Structure** DAIICT follows a structured examination system that consists of the following:

- **In-Semester Examinations:** There are typically two in-semester examinations conducted during the course of the semester:
  - **First In-Semester Examination**
  - **Second-Semester Examination**
- **End-Semester Examination:** An exam in pen-paper mode, as announced in the Academic Calendar is conducted by the CoE of typically three hours of timeslot.

### **3. Examination Calendar** The dates for all exams are pre-scheduled and published in the Academic Calendar before the start of each semester.

### **4. Examination Process**

a. **Examination Timetable:** The CoE releases the timetable for each exam at least two weeks prior to the examination date. The exam duration and weightage are predefined by the course instructors.

b. **ID Cards:** All students are required to carry their valid ID for entry into the examination hall.

c. **Seating Arrangements:** Seating arrangements are posted outside the examination venues. Students are required to adhere strictly to the seating plan and maintain silence in the examination hall.

d. **Use of Materials:** Only authorized materials, as specified by the course instructor, are allowed during the examination. The use of unauthorized materials (including but not limited to electronic gadgets) is strictly prohibited.

### **5. Examination Rules and Conduct**

a. **Attendance:** Students must be present at the examination venue at least 15 minutes before the start time.

b. **Identity Verification:** Students must display their valid student ID upon entering the examination venue. The invigilators perform checks during the exam.

c. **Code of Conduct:** Students are expected to maintain discipline during the examination. Cheating, talking, exchanging materials, or any other form of malpractice will result in immediate disciplinary action as defined in the Policy.

## 6. **Disciplinary Actions for Malpractice**

a. **Detection:** Any student found engaging in unfair practices during examinations will be reported to the CoE immediately.

b. **Consequences:** Depending on the severity of the malpractice, action will be taken as per notified malpractice policies.

## 7. **Responsibilities of Students**

- Familiarize themselves with the examination schedule and requirements.
- Adhere to all examination rules and instructions provided by invigilators.

## 8. **Responsibilities of the Controller of Examinations (CoE)**

- To oversee the smooth conduct of all examinations.
- To ensure timely announcement of results.
- To address grievances related to examinations in accordance with institute policies.

The CoE office consists of the following personnel:

- **Controller of Examinations (CoE):** Responsible for overseeing the entire examination process, ensuring adherence to policies, and addressing any examination-related issues.
- **Joint Controller of Examinations (Jt. CoE):** Assists the CoE in managing examination activities, including handling day-to-day operations.
- **Examination Assistant:** Provides administrative support, including logistics, communication with faculty, and ensuring compliance with examination guidelines.

The CoE office handles the following tasks:

### a. **Question Paper Management:**

- Collection of question papers from faculty members.
- Ensuring confidentiality and security in the printing and distribution of question papers.

### b. **Examination Timetable:**

- Preparing and announcing the examination timetable at least two weeks before the exam.
- Handling any scheduling conflicts or adjustments in consultation with faculty and students.

### c. **Seating Plan and Logistics:**

- Arranging seating plans for all examinations and posting them at the venues.
- Ensuring proper logistics such as availability of examination halls, seating arrangements, and examination materials.

#### **d. Handling Registration Issues:**

- Resolving any student registration or eligibility issues related to examination attendance.
- Coordinating with academic departments to ensure students are correctly registered for their courses and exams.

#### **e. Other Administrative Functions:**

- Managing communications related to examinations, including hall tickets, guidelines, and other necessary notices.
- Addressing grievances or special requests (such as medical issues) in coordination with the relevant departments.

### **Examination Rules for students**

**The following rules apply to every student of DA-IICT, Gandhinagar while taking the various written examinations that form a part of the evaluation process for their curricular courses.**

#### **I. Reporting to the examination hall.**

- 1. No student will be allowed to bring his/her mobile phones to the examination hall.**
- 2. All students must carry with them their Identity Card during the examinations and produce the same for verification, if required.**
- 3. The students should ensure that they bring with them all the concerned material that is allowed by the concerned course instructor, which would be needed to take the examination.**
- 4. The students are expected to take their respective seats 5 minutes prior to the scheduled commencement of the examination.**
- 5. Students should ensure that they are not carrying on their person any material, other than that allowed by the course instructor for the particular examination, before they take their seats in the exam hall. Any such material found on their person during the examination would be construed as a deliberate attempt to use unfair means and would be dealt with accordingly.**

#### **II. At the start of the examination**

- 1. The doors of the examination hall would be closed 5 minutes before the commencement of the examination, for the distribution of the exam material to the students already seated in the room. The door will be opened, to allow**

latecomers, after the last student already seated in the room in time has received his/her exam material.

2. The latecomers should proceed take their seats and wait for the exam material to be given to them.
3. No student will be allowed to enter the examination hall 15 minutes after the commencement of the examination for in-semester examinations and 30 minutes after the commencement of the examination for end-semester examinations.

### **III. During the examination.**

1. Exchange (borrowing or lending) of any material during the examination is not allowed.
2. No student will resort to any unfair means of any nature while taking their examinations. If any student were found to be involved in using unfair means during an examination, the said student would be immediately expelled from the exam hall for that examination and the matter would be reported to the respective course instructor and the Dean (AP) for further action.
3. In case a student is found to be copying from his/her fellow student, then both the parties, the one providing the assistance and the one seeking the same, would be punished for the same.
4. In case a student has to leave his/her seat for whatever reason, he/she has to seek the permission of the concerned invigilator(s) of that exam hall before doing so. For visiting the rest room, he/she has to seek the permission of the concerned faculty invigilator of that examination hall before doing so.
5. No supplement(s) would be given to the students in the last 5 minutes of the examination.

### **IV. On completion of the examination.**

1. No student will be allowed to leave the room in the first 15 minutes of the in-semester examination (typical duration 1 hour) or first 30 minutes of the end-semester examination (typical duration of 3 hours) and in the last 5 minutes of the examination.
2. Students who are present in the last 5 minutes of the examination will have to wait till the exam material is collected from all the students by the invigilators and they are permitted to leave by the faculty invigilator of that exam hall.
3. While leaving the examination hall the students should not hang around to discuss the paper. As there may be other examinations still in progress, quietly leave the building to ensure that you do not disturb them.

# **Annexure VI**

## **Policy on Evaluation Practices**

## **Annexure VI**

### **Policy on Evaluation Practices**

Assessment is an integral part of the education system as it certifies the academic standards accomplished by a student. Fairness and transparency in assessing students' performance ensure impartial judgment, in achieving students' confidence and quality education in the programme. In order to achieve the fairness and transparency in the evaluation system, the institute has adopted the following practices.

- (i) The course instructor announces to students about the grading policy and the distribution of weightage in different components in the courses that the instructor is going to follow to assess the students' performance in the course. The performance of the students is assessed on a continuous basis by conducting two in-semester examinations, end-semester examination, assignments, quizzes, student presentations, lab work, and projects. A minimum of 80% attendance is required in each course for appearing for the end semester examination. After evaluation, the answer books are shown to the students so that they can see where they have made mistakes and discuss with the instructor accordingly. The semester result is announced within a week after the end semester examination.
- (ii) All our academic programmes follow continuous evaluation methods in which weightage is assigned to different components, namely, assignments, laboratory work, quizzes, projects, etc. In addition to continuous assessment, the academic calendar allows instructors to conduct two in-semester examinations and an end-semester examination for courses offered in a semester. Each instructor is responsible for the evaluation process for the course(s) taught by him/her. The instructor informs the students of the evaluation process of the course at the beginning of the semester. The examination pattern is decided by the instructor and communicated to students in the beginning of the semester. Typical examination patterns include closed book, open book, objective, subjective, multiple choice, etc. If student misses any exams due to ill health or family urgencies, then the respective course instructor arranges make up exams/labs within two weeks after the missed exams schedule. Dean (AP) and conveners of UG and PG committees oversee the evaluation process that is followed in courses in respective programs.

- (iii) In a typical university system which runs many programmes under different departments, Core courses may involve multiple batches across the departments or affiliated colleges. Furthermore, the same course may be taught by many instructors in various departments or affiliated colleges. In such scenarios, it is advisable to have the final examination question paper moderated by external examiners. However, in our system, the Core courses are run by a single instructor for a single batch. As a result, unfair means or unsecure circumstances do not arise in our system. UG/PG committees along with Dean (AP) keep a continuous watch to the regular lectures/labs, course outlines, feedback processes and examination & evaluation practices. For any issues, they discuss the matter with the instructor concerned to achieve the quality academic standards.
- (iv) All our courses with laboratory components are being assisted by Teaching Assistants (MTech and PhD students). The lab component of the course is mentored by the course instructor with support of multiple teaching assistants. A student performance in his/her lab components are assessed continually by both teaching assistants and the instructor. In addition to the continuous assessment in lab sessions, the lab course is also having lab exams, viva-voce, etc.
- (v) The curricula of our programmes consist of many Core and Foundational courses which are specialized in the ICT disciplines. It is not an easy task to identify external experts for such courses in neighbouring institutions. Therefore, it was decided by the academic administration of the institute that peer review and discussion would be a substitute for the course delivery, which is being practiced till date. However, new institutions like IITs and IIITs have recently been established in the neighbouring regions, so in near terms the institute would like to involve external experts for the question paper moderation and UG and PG thesis progress evaluation.

## **Policy on Question Paper Setters, Board of Examinations and Invigilators**

## **Annexure VII**

### **Policy on Question Papers Setters, Board of Examinations and Invigilators**

All our programmes follow semester system. Dean(AP) assigns courses for every programme to instructors after discussion with various peer groups of the institute. The instructor decides the weightages of the in-semester and end-semester examinations, quizzes, assignments, laboratory and project work for the course he/she is assigned for. The distribution of weightages is announced to students by the course instructor in the beginning of the course, so that the students are aware of the evaluation mechanism to be followed in the course. The course instructor follows one of the following grading mechanisms, after announcing the same in the beginning of the semester – (i) the absolute grading is based on a predetermined class intervals allotted for each grade. Student marks are converted to grades based on the predetermined class intervals announced for the course;(ii) the relative grading is based on the distribution of marks obtained by all the students of the course and the grades are awarded based on a cut-off marks or percentile.

The course instructor sets the question paper for in-semester and end-semester examinations. The question paper of a course must consider the course grading policy, weightage assigned to different components of the course, which were being announced to students by the course instructor in the beginning of the semester. The instructor does the evaluation of the answer sheets for his/her courses. Students are given the opportunity to inspect the marks awarded for all components of the evaluation process and to see their examinations answer-books prior to the declaration of results. The evaluation process of each course is completely transparent to the students that should reflect what the instructor had announced in the beginning of the semester about the course grading policy and what has been followed for the final grading.

### **Internships and UG Projects Evaluation Board**

Separate coordinator is appointed by Dean (AP) for Internship/Project, who supervises the entire task with the support of faculty and staff.

Internships and projects provide an opportunity to the student to carry out projects either in-

campus or off-campus. An in-campus internship/project should have a faculty mentor/supervisor at DA-IICT, who would look after the project work of the student and interact closely with the student. Whereas, the off-campus internship/project requires on-site supervisor as well a faculty mentor from DA-IICT, who would interact with the on-site supervisor as and when required.

Student is required to defend/present his/her internship/project work somewhere in the second week of March for the Rural Internship, in the second week of July for the Summer Research/Industrial internship, and in the first week of May for the BTech project. Multiple panels of faculty evaluate each student's performance on the basis of originality of the work, technical contents, and outcomes of the work that the student has carried out during the internship/project.

### **MSc Projects Evaluation**

MSc projects are examined by a panel of faculty constituted by the programme coordinator in consultation with PG convener and Dean(AP). Almost all students do their final project off-campus. Their projects are being supervised by the on-site project supervisor, who forwards his/her recommended score for the student's performance to the MSc project coordinator. All students are asked to make their presentation in front of a panel of faculty at the end of the semester. The panel sees the score suggested by the on-site supervisor and based on the student's performance showed in his/her presentation, the final grade is recommended to the project coordinator, who then uploads the grade in E-campus.

### **MTech Theses Evaluation**

The programme coordinator in consultation with PG convener and Dean(AP) constitutes the examination panel for MTech thesis. Each MTech thesis is mentored by a three member panel comprising the supervisor(s) and subject experts. Each thesis goes through first stage, second stage and final stage evaluation by the same panel. Once the panel clears the final stage with satisfactory assessment, the student is allowed to submit the final thesis, which will be examined an internal expert. Upon satisfactory evaluation report by the thesis examiner, the student can defend his/her thesis publicly in the presence of the thesis evaluation panel and thesis examiner. Nevertheless, the institute can invite external examiners for theses evaluation as and when the demand arises.

### **PhD Theses Evaluation**

The PhD evaluation process is similar to other premier institutions. Once a PhD student completes the stipulated course work and clears the comprehensive examination, the Dean(AP) constitute a Research Progress Committee (RPC) comprising with three faculty member including the PhD supervisor for evaluating the student's progress in every semester. The RPC evaluates the progress in every semester made by the student and provides feedback/suggestion accordingly. Before the thesis submission, a pre-synopsis presentation is evaluated by a separate committee to judge the quality and the quantity of the work that has been carried out by the student. After getting positive feedback from the pre-synopsis committee, the student is permitted to submit his/her thesis.

PhD theses are examined by the external examiners followed by viva voce examination. The examiners are appointed by the Director and at least one of the examiners is selected from overseas. Once the thesis examiners accept the thesis, the Dean (AP) asks the student to defend his/her thesis. In the PhD thesis defense, at least one external examiner attends the presentation made by the students. The institute also invites the overseas examiner to attend the presentation on skype.

### **Grievance Redressal**

The institute has a formal mechanism in place for addressing all grievances pertaining to academics, admission and student life. The institute has constituted Grievance Redressal Committee (GRC) per UGC guidelines, which comprises Dean (AP) as the chairman, Dean (Students), UG and PG committee conveners as members, and Registrar as convener of the GRC.

To address student grievances for course delivery, examination and evaluation, the following mechanism is carried out at various levels at the institute:

- The institute has an elected Academic Committee of SBG (Student Body Government), which acts as an interface between the student community and the faculty for all academic matters. All the suggestions regarding academic issues by students are brought to this Committee, which, after discussion and consultation, passes on the suggestions to

the UG and/or PG Committee. After the discussions in this committee the matter is passed onto Dean-AP for appropriate actions.

- The Academic Committee of SBG is mentored by the Dean-AP. The academic calendar stating the schedule of all examinations (in-semester and end-semester) is communicated to all students by the Registrar's office well in advance before commencement of the academic session. If any complaints noticed by the Academic Committee of SBG or student(s), then they bring the matter to the notice of UG/PG committee and to Dean-AP. Dean-AP in consultation with UG and PG committees addresses the matter appropriately and forwards the recommendation (if any) to the Registrar's office. The Registrar's office, then, can amend the examinations schedule appropriately and can submit the same for approval of the Academic Council of the institute.
- For each course, the instructor announces the grading policy in the very first lecture of the course. The grading policy details about the various components of the course and the weightage attached to each component (e.g. in-semester exam, end-semester exam, quizzes, assignments, presentations). If a student has any complaints on quizzes or assignments then he/she talks to the respective instructor and resolves the issues. If the complaint is related to in-semester or end-semester examinations then the matter is referred to Dean-AP, who then in consultation with UG/PG convener instructs the course instructor to take needful action (e.g. make-up test, re-exam, re-checking) on the matter.
- For any complaints related to marks or grade, the matter is referred to the course instructor. The instructor shows the answer sheet and clarifies the points wherever the student has complaints. If the matter is eligible for marks/grade improvement then the instructor submits a hardcopy form in the prescribed form for grade improvement with justification for improvement to Dean-AP. Then, Dean-AP checks its correctness and forwards the form to Registrar's office and the modified grade is then reflected in the student's grade sheet accordingly. If the grievances are unresolved, then Dean-AP consults with the Director and refers the complaints to an expert (internal/external) adjudicator.

With the aforementioned efforts, the institute is able to resolve all grievances pertaining to course objectives, examination and evaluation effectively.

## **Eligibility Criteria for Admissions**

## **Eligibility Criteria for Admissions**

**Eligibility Criteria for admissions to the following UG programs is given below:**

- B.Tech. Information and Communication Technology (ICT)
- B.Tech. (Honours) in ICT with minor in Computational Science
- B.Tech. Mathematics and Computing
- B.Tech. Electronics and VLSI Design

For Indian Residents:-

The minimum academic qualification for admission to the programs is that the candidate must have passed in final examination of 10+2 (Class XII) or its equivalent referred to as the qualifying examination (mentioned below). The candidate must have passed in final examination of 10+2 (Class XII) or its equivalent with Mathematics, Physics and any one of Chemistry/Bio-technology/Computer Science/Biology. Candidates appearing in the qualifying examination in 2024 are also eligible to apply for consideration of provisional admission. All candidates who are offered provisional admission will be required to produce the proof of having passed the qualifying examination (10+2 examination or equivalent) to the Institute latest by 30 October 2024, failing which the provisional admission will stand, cancelled.

If a candidate is found ineligible at a later date, even after admission to DA-IICT, her/his admission will be cancelled. All admissions will be subject to verification of facts from the original testimonials/certificates/documents of the candidates. The decision of the competent authority at DA-IICT regarding eligibility of any candidate shall be final.

A list of qualifying examinations is given below:

- The final examination of the 10+2 system, conducted by any recognized Central/State Board, such as Central Board of Secondary Education, New Delhi; Council for the Indian School Certificate Examinations, New Delhi; etc.
- Intermediate or two-year Pre-University examination conducted by a recognized Board/University.
- Final examination of the two-year course of the Joint Services Wing of the National Defense Academy.
- Senior Secondary School Examination conducted by the National Institute of Open Schooling with a minimum of five subjects.
- Any Public School/Board/University examination in India or in any foreign country recognized as equivalent to the 10+2 system by the Association of Indian Universities (AIU).

- H.S.C. vocational examination.
- A Diploma recognized by AICTE or a State Board of Technical Education of at least 3 year duration.
- General Certificate Education (GCE) examination (London/ Cambridge / Sri Lanka) at the Advanced (A) level.
- High School Certificate Examination of the Cambridge University or International Baccalaureate Diploma of the International Baccalaureate Office, Geneva.
- Candidates who have completed the Class 12 (or equivalent) examination outside India or from a Board not specified above should produce a certificate from the Association of Indian Universities (AIU) to the effect that the examination they have passed is equivalent to the Class 12 Examination.
- In case the Class 12 Examination is not a public examination, the candidate must have passed at least one public (Board or Pre-University) examination earlier.

For Non-Indian Residents and Foreign Nationals:-

For the purpose of admissions into the B Tech programs, the following categories of applicants will be considered as Non- Resident Indians:

- Overseas Citizen of India (OCI) Card holders.
- Persons of Indian Origin (PIO) Card Holders.
- Certificates of Non Resident Indian issued by the Indian Embassy/Indian Consulate of the Country where the Non Resident Indian is residing.
- Passport of an applicant indicating his status as 'Non Resident Indian.'
- Persons who have studied outside India and have passed either 10th or 12th standard (or must be appearing for the examination in the year of admission) or equivalent from any system of education subject to the eligibility criteria stipulated below.
- Either of the parent of the applicant residing abroad and submits documentary proof that he/she is a Non Resident Indian (e.g., NRI bank account in India or letter from the Indian Embassy/Consulate). The NRI status should be valid until 1st August of the year of admission.

Foreign Nationals (FN): A person having citizenship of a foreign country (citizens other than India) and not having the status of "NRI".

1. Only those candidates whose date of birth falls on or after 01 October 1999 are eligible to apply. The date of birth as recorded in the 10th or 12th standard certificate, issued by the Board/Examination Authority will be taken as authentic. Candidates must produce this certificate in original as proof of their age at the time of admission/counseling.
2. Candidates must have passed or must be appearing in the year of application the qualifying examination, i.e., XII standard or equivalent from any system of education as recognized by the [Association of Indian University \(AIU\), New Delhi](#) in Physics, Mathematics and Chemistry/Computer Science/Biotechnology/ Biology and must have secured a minimum GPA of 6 on a 10-point scale, if grades are awarded. In case marks are awarded, candidates must have secured minimum 60% aggregate in Physics, Mathematics and Chemistry/Computer Science /Biotechnology/Biology of the qualifying examination.

3. Candidates who are appearing in the qualifying examination in the year of admission will be considered for provisional admission based on the submission of transcripts of their 11th standard and the first semester of their 12th standard (if issued) duly certified by their school authorities. All such candidates will be required to produce the proof of having passed the qualifying examination (XII standard or equivalent) latest by 30th October 2024 failing which the admission will stand cancelled.

**Eligibility Criteria for admission to the PG programs is given below:**

**M Tech (ICT)**

Specialization wise criteria:

Machine Learning

Software Systems

GATE qualified candidates

A candidate with a qualifying degree in any one of the following:

- BE/BTech (CS/IT/EL, ECE, Electrical, Instrumentation)
- M.Sc. degree in Computer Science / Electronics / Mathematics / Physics / Statistics.
- M.S./M.Sc. degree of DA-IICT.
- M.C.A. degree (3 year program)
- The aggregate marks in the qualifying degree should not be less than 60% or equivalent as per the norm set by the degree awarding Institute/University.

Non-GATE candidates

- MSc (CS), MCA, BE/BTech (CS, IT, CSE, ECE, Instrumentation)
- The aggregate marks in the qualifying degree should not be less than 65% or equivalent as per the norm set by the degree awarding Institute/University.

VLSI & Embedded Systems

GATE qualified candidates

A candidate with a qualifying degree in any one of the following:

- BE/BTech (CS/IT/EL, ECE, Electrical, Instrumentation), MSc (Electronics)
- The aggregate marks in the qualifying degree should not be less than 60% or equivalent as per the norm set by the degree awarding Institute/University.

Non-GATE candidates

- BE/BTech (Instrumentation & Control)
- MSc (Electronics), BE/BTech (ECE/EE/EL, Instrumentation)
- The aggregate marks in the qualifying degree should not be less than 65% or equivalent as per the norm set by the degree awarding Institute/University.

Wireless Communication and Signal Processing (WCSP)

GATE qualified candidates

A candidate with a qualifying degree in any one of the following:

- BE/BTech. or equivalent in ECE, EE, CS/IT, Instrumentation, Instrumentation & Control, MSc or equivalent in Electronics.
- The aggregate marks in the qualifying degree should not be less than 60% or equivalent as per the norm set by the degree awarding Institute/University.

#### Non-GATE candidates

A candidate with qualifying degree in any of the following:

- BE/BTech. or equivalent in ECE, EE, Instrumentation, Instrumentation & Control, MSc or equivalent in Electronics.
- The aggregate marks in the qualifying degree should not be less than 65% or equivalent as per the norm set by the degree awarding Institute/University.

Candidates appearing in their final degree examination and expecting to complete it by July 2024 may also apply. However, their final admission will be subject to the condition that they obtain an aggregate of marks required based on mode of admission i.e. GATE/Non-GATE, or its equivalent as per the norms set by the degree granting Institute/University. All admitted candidates have to submit their degree certificates or proof of completion of degree, before 30 October 2024 failing which their admission is liable to cancellation.

#### **M Sc (IT)**

A Bachelor's degree holder from a recognized University in any stream with an aggregate of 60% marks, or its equivalent as per the norms set by the degree granting institute/university, in the qualifying degree examination is eligible to apply. Candidates appearing in their final Degree examination and expecting to complete it by July 2024 may also apply. However, their final admission will be subject to the condition that they obtain an aggregate of 60% marks, or its equivalent as per the norms set by the degree granting institute/university. All admitted candidates have to submit their degree certificates or proof of completion of Degree, before 30th October 2024 failing which their admission is liable to cancellation.

#### **M Sc (DS)**

A Bachelor's degree in Science from a recognized university with a minimum aggregate of 60% or its equivalent, as determined by the degree-granting institution, in disciplines such as Statistics, Mathematics, Physics, Computer Science, Economics, Econometrics, and Operational Research;

OR

A Bachelor's degree in Engineering or Technology from a recognized University with a minimum aggregate of 60% or its equivalent, as determined by the degree-granting institution, in disciplines such as Computer Science, Information Technology, Electronics, Electronics and Communication, or Electrical Engineering.

Candidates holding BCA, BSC (IT), BSC (AI/ML), and B.Sc. (Data Science) degrees with a minimum aggregate of 60% or its equivalent, as determined by the degree-granting institution, are also eligible to apply.

Additionally, candidates must have passed the 12th standard with Mathematics as a main subject.

Candidates appearing in their final degree examination and expecting to complete it by July 2024 may also apply. However, their final admission will be subject to obtaining a minimum aggregate of 60% marks or its equivalent, as determined by the degree-granting institute/university. All admitted candidates must submit their degree certificates or proof of completion of the degree by 30 October 2024; failure to do so may result in cancellation of their admission.

**M Sc (AA)**

A Bachelor's degree with an aggregate of 60% or its equivalent, as per the norms set by the Degree granting Institute/University in Agriculture and allied sciences, Environmental Science, Statistics, Mathematics, Physics, Computer Science, Computer Applications, Information Technology

OR

A Bachelor's degree in Engineering or Technology from a recognized University with an aggregate of 60% or its equivalent, as per the norms set by the Degree granting Institute/University in Computer Science, Information Technology

Candidates appearing in their final year Degree examination and expecting to complete it by July 2024 may also apply. However, their final admission will be subject to the condition that they obtain an aggregate of 60% marks, or its equivalent as per the norms set by the degree granting institute/university.

All admitted candidates have to submit their degree certificates or proof of completion of Degree, before 30 October 2024 failing which their admission is liable to cancellation.

Professionals working in agriculture domain and satisfying the above educational qualification are also welcome to apply. Maximum age limit is 45 years as on last date of filling the application form.

**M Des (CD)**

A Bachelors Degree or equivalent from a statutory university in the fields of Design, Science, Engineering, Technology, Humanities, Social Sciences, Fine Arts, Applied Arts and Performing Arts. Professional Diplomas from nationally recognized institutions such as NID, NIFT, CEPT and Srishti School of Art and Design will also be considered for eligibility. Candidates must have 55% marks or equivalent in the last qualifying degree/examination and are required to submit the provisional degree certificate or proof of completion of degree before 30 October 2024 failing which their admission is liable to cancellation.

**PhD**

For Ph.D. (Regular):

Discipline	Educational qualification
ICT and allied Engineering disciplines	M.Tech./M.E./M.C.A./M.Sc./M.Phil./B.Tech/B.E. or equivalent degree in ICT / CS / EC / IT / EE / IN / Mathematics / Statistics / Physics / Bioinformatics / Electronics or other appropriate disciplines with 60% marks or its equivalent in the qualifying degree as per the norms set by degree awarding Institute / University.

Discipline	Educational qualification
Mathematical, Physical, and Computational Sciences	M.Sc./M.Tech./M.Phil./B.Tech./B.E. or equivalent degree in Engineering Physics / Computational Science / Computer Science / Scientific Computing / Physics / Mathematics / Electronics / Bioinformatics or other appropriate disciplines with 60% marks or its equivalent as per the norms set by the degree awarding Institute / University.
Humanities, Arts, Social Sciences, and Design (English, Modern History, Social & Cultural Anthropology, Comparative Literature, Philosophy, Cultural & Media Studies and Design)	M.A./M.B.A./M.Phil. or an equivalent degree in the desired discipline with at least 55% marks or equivalent as per the norms set by the degree awarding Institute / University.

For Ph.D. (Part-Time):

Category	Work experience
Sponsored Part-time	<p>A candidate who intends to apply in the Sponsored Part-time category must be currently employed at an Organisation with which DA-IICT has established MoU. The work experience required will be as mentioned in the MoU. The candidate should forward his/her application through the proper channel; i.e., through a sponsorship certificate / letter issued by the head of the department / organisation.</p> <p>A template for the sponsorship letter is available <a href="#">here</a></p>
External Part-time	<p>A candidate who intends to apply in the External Part-time category must be currently employed at an R&amp;D Organisation or University / Institution and must have at least three years of relevant experience. The candidate should submit a 'no objection certificate' (NOC) issued by the head of the organisation / institution.</p> <p>A template for the NOC is available <a href="#">here</a></p>

**INDEPENDENT AUDITORS' REPORT**

**Report on the Audit of the Financial Statements**

**Opinion:**

We have audited the accompanying financial statements of **Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar ("DAIICT")**, which comprise the Balance Sheet as at March 31, 2022, and the Income and Expenditure Account for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of DAIICT as at March 31, 2022 and its surplus for the year ended on that date.

We conducted our audit of the financial statements in accordance with the Standards on Auditing prescribed by the Institute of Chartered Accountants of India ("ICAI"). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of DAIICT in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of DAIICT in accordance with the accounting principles generally accepted in India, including the applicable Accounting Standards. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of DAIICT and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing DAIICT's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate it or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing DAIICT's financial reporting process.

**Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing our opinion on the effectiveness of the internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on DAIICT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause DAIICT to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**SORAB S. ENGINEER & CO. (Regd.)**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Report on Other Legal and Regulatory Requirements**

Further, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by the Act have been kept by DAIICT so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Income and Expenditure dealt with by this Report are in agreement with the relevant books of account.

**DHIRUBHAI AMBANI INSTITUTE OF INFORMATION AND COMMUNICATION TECHNOLOGY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022**

**1 General Information**

The Dhirubhai Ambani Institute of Information and Communication Technology ("The Society"), having its Office at Indroda Circle, Gandhinagar, Gujarat was established in 2001 as a Society under the Societies Registration Act, 1850 and Bombay Public Trust Act, 1950, and subsequently an Act of State Government of Gujarat viz Dhirubhai Ambani Institute of Information and Communication Technology Act, 2003 conferred the status of a university for the purpose of to help build a knowledge-led society founded on intellectual competitiveness for global leadership. The DA-IICT is a Private University and its has included in the list of universities maintained by the University Grant Commission (UGC) under Section 2(f) of the UGC Act, 1956.

**2 Significant Accounting Policies**

**a Basis of Preparation of Financial Statements**

The financial statements that comprise Balance Sheet and Income & Expenditure Account together with notes, are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with applicable Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI). The financial statements are prepared under the historical cost convention on going concern and on accrual basis unless other wise stated. The accounting polices adopted in the preparation of the financial statements are consistent with those followed in the previous year.

**b Use of Estimates**

The presentation of financial Statements in accordance with Generally Accepted Accounting Principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include useful life of fixed assets, employee benefits, contingent liabilities etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in the current and future periods.

**c Revenue Recognition**

**i) Registration, Tution & Hostel Fees**

Fee received from the students for admission, Tution and Hostel are recognised over the duration of the respective courses. Fees for other courses is recognised in the period in which the services are rendered.

**ii) Surplus on Sale of Investments / Assets held for earmarked funds & others**

Surplus or deficit out of sale of investments/Assets held for earmarked funds & others is recognized on a trade date basis. The cost of investments /Assets held for earmarked funds & others is computed on FIFO basis.

**iii) Other Income**

Interest income is accounted on a time proportion basis.

**d Property, Plant & Equipments**

Property, Plant & Equipments are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. The cost includes acquisition cost which is directly attributable to bring the asset to its working condition for its intended use.

**e Depreciation**

Depreciation on all Property, Plant & Equipments (Acquired out of the own funds) are provided on a Written Down Value (WDV) method based on the estimated useful life at the following rates as approved by the Board of Governors of the University. If the assets is acquired or purchased on or before 15 of the particular month, than full month depreciation is provided, otherwise depreciation provided in the next month of purchased.

Property,Plants & Equipments	Rate of Depreciation
Buildings - Hostel	10.00%
Air Conditioners & Office Equipments	33.33%
Computers & Data Processing Units	40.00%
Furniture & Fixtures	33.33%
Motor Vehicles	25.00%
Library Books	60.00%

**f Impairment of assets**

The carrying value of assets at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an Impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the statement of income and expenditure.

**g Investments / Assets held for earmarked fund & others**

Investments/Assets held for earmarked fund & others are classified into Current Investments and Long-term Investments (Non Current). Current investments are valued, scrip wise, at cost or fair value, whichever is lower. Long term Investments (Non Current) are valued at cost. Provision for diminution is made scrip wise to recognise a decline, other than temporary. Investments in the form of deposits with banks and other investments maturing after a period of twelve months from the date of balance sheet are classified as non-current and others are classified as current.

**h Foreign Currency Transaction**

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Exchange differences, if any arising out of transactions settled during the year are recognised in the Statement of Profit and Loss.

Monetary assets and liabilities denominated in foreign currencies at the year end are restated at year end rates.

**i Employee Benefits**

**i) Short Term Employee Benefits**

Short term employee benefits like salary, allowances, exgratia are recognised as expenses in the year in which the related services are rendered.

**ii) Defined Contribution Plans**

Defined contribution plans are those plans where the Institute pays fixed contributions to Provident fund managed by independent trust. Contributions are paid in return for services rendered by the employees during the year and recognised as expenses in line with salary and allowances. The Institute has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to

**ii) Defined Benefits Plans**

The Institute provides gratuity, post retirement pension and compensated absence to its employees. Gratuity liability is funded with Life Insurance Corporation of India. The liabilities towards compensated absence and post retirement pension are not funded. The present value of these defined benefit obligations are ascertained by an actuarial valuation done by LIC as per the requirements of Accounting Standard (AS) - 15 Employee Benefits. The liability recognised in the balance sheet is the present value of the defined benefit obligations on the balance sheet date less the fair value of plan assets (for funded plans) together with adjustments for unrecognised past service costs. Past service costs is recognised immediately to the extent that the benefits are vested. All actuarial gains and losses are recognised in the Statement of Income and Expenditure in full in the year in which they occur.

**j Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognised when there is a present obligation as a result of past events and it is probable that there will be outflow of resources and a reliable estimate of the obligation can be made of the amount of the obligation. Contingent liabilities are not recognised but are disclosed in the notes to the financial statements. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed. Contingent assets are not recognised nor disclosed in the financial statements.

**INDEPENDENT AUDITORS' REPORT**

**Report on the Audit of the Financial Statements**

**Opinion:**

We have audited the accompanying financial statements of **Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar ("DAIICT")**, which comprise the Balance Sheet as at March 31, 2023, and the Income and Expenditure Account for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of DAIICT as at March 31, 2023 and its surplus for the year ended on that date.

We conducted our audit of the financial statements in accordance with the Standards on Auditing prescribed by the Institute of Chartered Accountants of India ("ICAI"). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of DAIICT in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of DAIICT in accordance with the accounting principles generally accepted in India, including the applicable Accounting Standards. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of DAIICT and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing DAIICT's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate it or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing DAIICT's financial reporting process.

**Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing our opinion on the effectiveness of the internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on DAIICT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause DAIICT to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **SORAB S. ENGINEER & CO. (Regd.)**

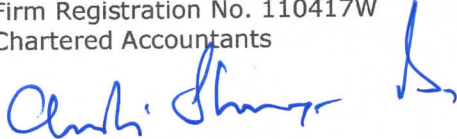

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

Further, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by the Act have been kept by DAIICT so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Income and Expenditure dealt with by this Report are in agreement with the relevant books of account.

**a Basis of Preparation of Financial Statements**

The financial statements that comprise Balance Sheet and Income & Expenditure Account together with notes, are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with applicable Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI). The financial statements are prepared under the historical cost convention on going concern and on accrual basis unless otherwise stated. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

**b Use of Estimates**

The presentation of financial Statements in accordance with Generally Accepted Accounting Principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include useful life of fixed assets, employee benefits, contingent liabilities etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in the current and future periods.

**c Revenue Recognition**

**i) Registration, Tuition & Hostel Fees**

Fees received from the students for admission, Tuition and Hostel are recognised over the duration of the respective courses. Fees for other courses is recognised in the period in which the services are rendered.

**ii) Surplus on Sale of Investments /Assets held for earmarked funds & others**

Surplus or deficit out of sale of investments/Assets held for earmarked funds & others is recognized on a trade date basis. The cost of investments /Assets held for earmarked funds & others is computed on FIFO basis.

**iii) Other Income**

Interest income is accounted on a time proportion basis.

**d Property, Plant & Equipments**

Property, Plant & Equipments are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. The cost includes acquisition cost which is directly attributable to bring the asset to its working condition for its intended use.

**e Depreciation**

Depreciation on all Property, Plant & Equipments (Acquired out of the own funds) are provided on a Written Down Value (WDV) method based on the estimated useful life at the following rates as approved by the Board of Governors of the University. If the assets is acquired or purchased on or before 15 of the particular month, than full month depreciation is provided, otherwise depreciation provided in the next month of purchased.

Property,Plants & Equipments	Rate of Depreciation
Buildings - Hostel	10.00%
Air Conditioners & Office Equipments	33.33%
Computers & Data Processing Units	40.00%
Furniture & Fixtures	33.33%
Motor Vehicles	25.00%
Library Books	60.00%

**f Impairment of assets**

The carrying value of assets at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the statement of income and expenditure.

**g Investments / Assets held for earmarked fund & others**

Investments/Assets held for earmarked fund & others are classified into Current Investments and Long-term Investments (Non Current). Current investments are valued, scrip wise, at cost or fair value, whichever is lower. Long term Investments (Non Current) are valued at cost. Provision for diminution is made scrip wise to recognise a decline, other than temporary. Investments in the form of deposits with banks and other investments maturing after a period of twelve months from the date of balance sheet are classified as non-current and others are classified as current.

**h Foreign Currency Transaction**

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Exchange differences, if any arising out of transactions settled during the year are recognised in the Statement of Profit and Loss.

Monetary assets and liabilities denominated in foreign currencies at the year end are restated at year end rates.

**i Employee Benefits**

**i) Short Term Employee Benefits**

Short term employee benefits like salary, allowances, exgratia are recognised as expenses in the year in which the related services are rendered.

**ii) Defined Contribution Plans**

Defined contribution plans are those plans where the Institute pays fixed contributions to Provident fund managed by independent trust. Contributions are paid in return for services rendered by the employees during the year and recognised as expenses in line with salary and allowances. The Institute has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay/extend benefits to the Employees.

**ii) Defined Benefits Plans**

The Institute provides gratuity, post retirement pension and compensated absence to its employees. Gratuity liability is funded with Life Insurance Corporation of India. The liabilities towards compensated absence and post retirement pension are not funded. The present value of these defined benefit obligations are ascertained by an actuarial valuation done by LIC as per the requirements of Accounting Standard (AS) - 15 Employee Benefits. The liability recognised in the balance sheet is the present value of the defined benefit obligations on the balance sheet date less the fair value of plan assets (for funded plans) together with adjustments for unrecognised past service costs. Past service costs is recognised immediately to the extent that the benefits are vested. All actuarial gains and losses are recognised in the Statement of Income and Expenditure in full in the year in which they occur.

**j Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognised when there is a present obligation as a result of past events and it is probable that there will be outflow of resources and a reliable estimate of the obligation can be made of the amount of the obligation.

Contingent liabilities are not recognised but are disclosed in the notes to the financial statements. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognised nor disclosed in the financial statements.

**3 Segment Reporting :**

The Institute's operations are confined to "help build a knowledge-led society founded on intellectual competitiveness for global leadership" and predominantly spread in India. Hence all its operations fall under single segment within the meaning of Accounting Standard (AS) - 17 Segment Reporting.

4 In the opinion of management, all the Assets other than Fixed Assets and Non-Current Investments are approximately of the value stated if realised in the ordinary course of business.

5 Previous year's figures have been regrouped / restated where necessary, to confirm to the presentation of current period's financial statements.

**INDEPENDENT AUDITORS' REPORT**

**Report on the Audit of the Financial Statements**

**Opinion:**

We have audited the accompanying financial statements of **Dhirubhai Ambani University, Gandhinagar ("DAU")**, (Formerly known as Dhirubhai Ambani Institute of Information and Communication Technology) which comprise the Balance Sheet as at March 31, 2024, and the Income and Expenditure Account for the year that ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of DAU as at March 31, 2024, and its surplus for the year ended on that date.

We conducted our audit of the financial statements in accordance with the Standards on Auditing prescribed by the Institute of Chartered Accountants of India ("ICAI"). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of DAU in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of DAU in accordance with the accounting principles generally accepted in India, including the applicable Accounting Standards. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of DAU and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing DAU's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate it or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing DAU's financial reporting process.

### **Auditor's Responsibility**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing our opinion on the effectiveness of the internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on DAU's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause DAU to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **SORAB S. ENGINEER & CO. (Regd.)**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

Further, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by the Act have been kept by DAU so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Income and Expenditure dealt with by this Report are in agreement with the relevant books of account.

**DHIRUBHAI AMBANI UNIVERSITY**  
(Formerly known as Dhirubhai Ambani Institute of Information and Communication Technology)

**SCHEDULE 21 : NOTES FORMING PART OF ACCOUNTS**

**1 General Information**

The Dhirubhai Ambani Institute of Information and Communication Technology ("The Society"), having its Office at Indroda Circle, Gandhinagar, Gujarat was established in 2001 as a Society under the Societies Registration Act, 1850 and Bombay Public Trust Act, 1950, and subsequently an Act of State Government of Gujarat viz Dhirubhai Ambani Institute of Information and Communication Technology Act, 2003 conferred the status of a university for the purpose of to help build a knowledge-led society founded on intellectual competitiveness for global leadership. The DA-IICT is a Private University and its has included in the list of universities maintained by the University Grant Commission (UGC) under Section 2(f) of the UGC Act, 1956. The name has been changed to Dhirubhai Ambani University vide the Gujarat Government Gazette published on May 13, 2024.

**2 Significant Accounting Policies**

**a Basis of Preparation of Financial Statements**

The financial statements that comprise Balance Sheet and Income & Expenditure Account together with notes, are prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with applicable Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI). The financial statements are prepared under the historical cost convention on going concern and on accrual basis unless other wise stated. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

**b Use of Estimates**

The presentation of financial Statements in accordance with Generally Accepted Accounting Principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include useful life of fixed assets, employee benefits, contingent liabilities etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in the current and future periods.

**c Revenue Recognition**

**i) Registration, Tuition & Hostel Fees**

Fee received from the students for admission, Tuition and Hostel are recognised over the duration of the respective courses. Fees for other courses is recognised in the period in which the services are rendered.

**ii) Surplus on Sale of Investments /Assets held for earmarked funds & others**

Surplus or deficit out of sale of investments/Assets held for earmarked funds & others is recognized on a trade date basis. The cost of investments /Assets held for earmarked funds & others is computed on FIFO basis.

**iii) Other Income**

Interest income is accounted on a time proportion basis.

**d Property, Plant & Equipments**

Property, Plant & Equipments are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. The cost includes acquisition cost which is directly attributable to bring the asset to its working condition for its intended use.

**e Depreciation**

Depreciation on all Property, Plant & Equipments (Acquired out of the own funds) are provided on a Written Down Value (WDV) method based on the estimated useful life at the following rates as approved by the Board of Governors of the University. If the assets is acquired or purchased on or before 15 of the particular month, than full month depreciation is provided, otherwise depreciation provided in the next month of purchased.

Property, Plants & Equipments	Rate of Depreciation
Buildings - Hostel	10.00%
Air Conditioners & Office Equipments	33.33%
Computers & Data Processing Units	40.00%
Furniture & Fixtures	33.33%
Motor Vehicles	25.00%
Library Books	60.00%

**f Impairment of assets**

The carrying value of assets at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the statement of income and expenditure.

**g Investments / Assets held for earmarked fund & others**

Investments/Assets held for earmarked fund & others are classified into Current Investments and Long-term Investments (Non Current). Current Investments are valued, scrip wise, at cost or fair value, whichever is lower. Long term Investments (Non Current) are valued at cost. Provision for diminution is made scrip wise to recognise a decline, other than temporary. Investments in the form of deposits with banks and other investments maturing after a period of twelve months from the date of balance sheet are classified as non-current and others are classified as current.

**h Foreign Currency Transaction**

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction. Exchange differences, if any arising out of transactions settled during the year are recognised in the Statement of Profit and Loss.

Monetary assets and liabilities denominated in foreign currencies at the year end are restated at year end rates.

**i Employee Benefits**

**i) Short Term Employee Benefits**

Short term employee benefits like salary, allowances, exgratia are recognised as expenses in the year in which the related services are rendered.

**ii) Defined Contribution Plans**

Defined contribution plans are those plans where the Institute pays fixed contributions to Provident fund managed by independent trust. Contributions are paid in return for services rendered by the employees during the year and recognised as expenses in line with salary and allowances. The Institute has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay/extend benefits to the Employees.

**ii) Defined Benefits Plans**

The Institute provides gratuity, post retirement pension and compensated absence to its employees. Gratuity liability is funded with Life Insurance Corporation of India. The liabilities towards compensated absence and post retirement pension are not funded. The present value of these defined benefit obligations are ascertained by an actuarial valuation done by LIC as per the requirements of Accounting Standard (AS) - 15 Employee Benefits. The liability recognised in the balance sheet is the present value of the defined benefit obligations on the balance sheet date less the fair value of plan assets (for funded plans) together with adjustments for unrecognised past service costs. Past service costs is recognised immediately to the extent that the benefits are vested. All actuarial gains and losses are recognised in the Statement of Income and Expenditure in full in the year in which they occur.

**j Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognised when there is a present obligation as a result of past events and it is probable that there will be outflow of resources and a reliable estimate of the obligation can be made of the amount of the obligation. Contingent liabilities are not recognised but are disclosed in the notes to the financial statements. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed. Contingent assets are not recognised nor disclosed in the financial statements.

**3 Segment Reporting :**

The Institute's operations are confined to "help build a knowledge-led society founded on intellectual competitiveness for global leadership" and predominantly spread in India. Hence all its operations fall under single segment within the meaning of Accounting Standard (AS) - 17 Segment Reporting.

**4 Contingent Liability & Commitments**

## **Strategies to review Academic Programmes**

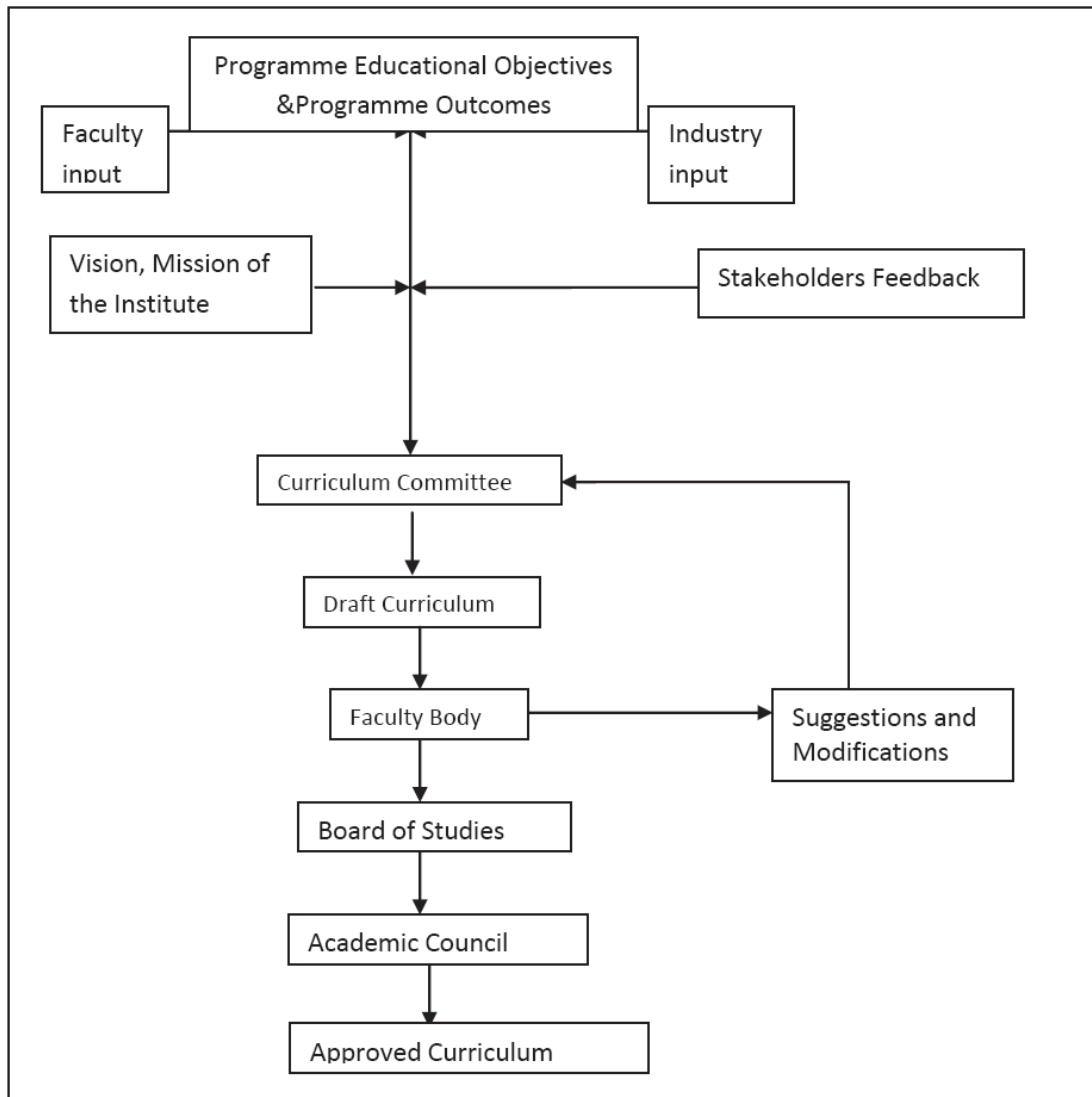

## **Annexure XIII**

### **Strategies to review Academic Programme**

- The Institute has adopted a mechanism to review the curriculum of UG programme once in every 5 years, and the curriculum of PG programme once in every 3 years.
- Curriculum development and revision for all programs goes through a process that begins with the constitution of a curriculum committee headed by a senior faculty under the guidance of Board of Studies.
- Any new curriculum design committee consists of internal faculty, domain experts, external experts from academia and industry.
- The committee discusses and comes out with a draft curriculum which is then discussed in the larger forum of faculty body.
- On a notional approval from the faculty body the final draft of the curriculum or the revision is again subjected to a brain storming process in the presence of experts from the academia and industry.
- The final draft curriculum or suggested revision is then put up to Board of Studies, which then forwards, with necessary recommendations, the draft to Academic Council of the Institute for final approval.
- Once the Academic Council approves the curriculum, it goes for implementation in the academic programme.

In our BTech and MTech programmes, the curriculum has a good degree of flexibility in terms of electives, internships, and projects. For each course, the pre-requisite course(s) and learning objectives are clearly stated based on which the instruction plan and assessment plan are also well-defined for most of the courses. Course-wise feedback is taken from students at least once in a semester. In some courses, the instructor takes course feedback multiple times, namely, at the beginning of the course, mid-semester feedback, and end-semester feedback. The students' feedback is taken into account for the subsequent updating/upgrading the course a content, delivery mechanism, and for the course allocation in subsequent academic sessions.

The process followed in the curriculum induction or revision in our programme is depicted below:

### DA-IICT Gandhinagar Institutional Achievements

Sr. No.	Description
1	DA-IICT Gandhinagar achieved <b>NAAC Grade A+ Accreditation</b> in 2024, recognizing its excellence in higher education.
2	Ranked <b>No. 1 under the IIRF University Ranking 2023</b> for overall State Private Universities, a significant milestone for DA-IICT.
3	Awarded the status of ' <b>Center of Excellence</b> ' by the Government of Gujarat, highlighting its leadership in research and innovation.
4	Achieved a notable position in the <b>National Institutional Ranking Framework (NIRF)</b> in 2022, underscoring academic excellence.
